

The new Cordless Work Station is a customizable workstation to meet the unique needs of every shop, while improving Accuracy & Productivity.

Built Strong for every day use, and built Smart for every need, this station offers users mobility and productivity like never before.

The station utilizes a cordless power unit that allows the work station to run for days on one charge. A Battery Monitor shows you power status, alerting you when it needs to be recharged.

'Build Your Own' - Customize your own workspace with features like, multiple monitors/screens, computer or laptop, power outlets, charging stations, storage accessories and more.
