

DUST FREE PRO DE-PRO

The new Dust-Free Pro sanding system is an All-in-One Sanding Station that provides a detachable, easy to move dust extractor designed to perform in the most demanding body shops while providing the cleanest and safest dust extraction solution. The sanding system is completely air-powered and contains no electrical parts making it safe for use in all paint booths, prep areas and on steel or aluminum materials. With this mobile, 2-in-1 sanding system, the ability to sand with a dual-action orbital sander or a hand block makes it possible to sand the toughest locations on any vehicle. The Dust-Free Pro station offers efficient options for storing abrasives, tools and any other sanding or prep materials needed to get the job done. Get the job done right with the Dust-Free Pro and add the cleanest and safest dust extractor to your shop today.

Features:

2-in-1 System - Two sanders on one unit makes this the most portable and mobile sanding system for any shop

Paint Booth Safe - This system is safe to use in paint booth or prep stations as it is Class 1 Division 1 safe

Ultra Low CFM - The DE-Pro only uses 5-7 CFM allowing shop to work more efficiently

Extremely Portable - With the cart and detachable unit, this system creates a mobile work space anywhere in the shop

Lots of Storage - The DE-Pro offers storage for all of the shop abrasives, tools and sanding prep supplies
