

## THE PROFESSIONAL DENT REPAIR SOLUTION

# GLUE AND ALUMINUM REPAIRS

Introducing the updated MWS-GTK-AL station, the professional solution for your dent repair needs. With the DA-3 Drawn Arc Welder, the PRO-GTK Glue tab kit and a variety of pulling tools on one mobile station, you can repair any dent anywhere in the shop.

The MWS-GTK-AL station also offers a wide range of dent pulling accessories and tools. These added tools give technicians the ability to pull any dent on any material.

The station provides plenty of storage space with lockable drawers, folding table, tool board, and tool hooks and customization opportunities.

### MOBILE, SMALL FOOTPRINT CART

The compact design and small footprint allows easy movement throughout the shop unlike other systems that have to be folded up before they can be moved through tight spaces.

### PRO-GTK GLUE TAB DENT REPAIR KIT

The Pro Spot Glue Tab Dent Repair Kit will help with your dent repair process by cutting repair time by avoiding welding or arc procedures.

This kit works on Aluminum and Steel, directly on painted materials. No need to grind. It has multiple style pull accessories for any dent and Reusable Pull Tabs. No panel removal is required and it eliminates any backside corrosion, burn through and welding.

All the Glue Tabs you need are neatly stored in two lockable drawers for quick and easy access. Each drawer features pre-printed labels identifying the tab types and includes QR codes for use instructions and reordering.

## DA-3 ALUMINUM WELDER

The Pro Spot DA-3 Synergic Drawn Arc welder easily applies pulling keys and threaded studs so that various tools can be used to pull dents from steel and aluminum panels. With specific programs for both steel and aluminum, the DA-3 features:

- Different functions for a variety of repair procedures
- Color graphics screen for easy and intuitive set up
- Customizable and storable weld programs
- SD card memory to update and add programs
- Extremely lightweight

**NO GAS  
REQUIRED!**

## ACCESSORIES - ACCESSIBLE AND READY TO GO

Professional dent pulling equipment and accessories are included with the station, so anything you need to get the job done, and get it done right, are right there at your fingertips.

- Convenient holders for Glue and Heat Guns, Glue Sticks, Infrared Thermometer, and alcohol bottles.
- Vertical Toolboard provides easy access to equipment on front and back.
- Includes our patented Pro Pull Dent Puller that can be used for pulls with Glue and Aluminum projects.
- An assortment of pull and lever bars are also stored on the cart, as well as both steel and aluminum hammers.
- Besides the Glue Tab drawers, there is a third drawer to store additional accessories. All the drawers can be locked for security purposes.
- Storage hooks to safely store all electrical and ground cables and keep them out of the way.
- Extended workspace with built-in work surface and fold-out table.
