

THE PROFESSIONAL DENT REPAIR SOLUTION

Introducing the MWS-GTK-AL station, the professional solution for your dent repair needs. With the DA-3 Drawn Arc Welder, the PRO-GTK Glue tab kit and a variety of pulling tools on one mobile station, you can repair any dent anywhere in the shop.

The MWS-GTK-AL station also offers a wide range of dent pulling accessories and tools. These added tools give technicians the ability to pull any dent on any material.

The station provides plenty of storage space with lockable drawers and toll hooks and customization opportunities.

APPLY KEYS AND STUDS WITH DRAWN ARC WELDING

SECURE STORAGE AND CONVENIENT WORK AREA

**MULTIPLE TOOLS STORAGE SOLUTIONS
ON ALL SIDES OF THE STATION**

DA-3 DENT PULLING SYSTEM

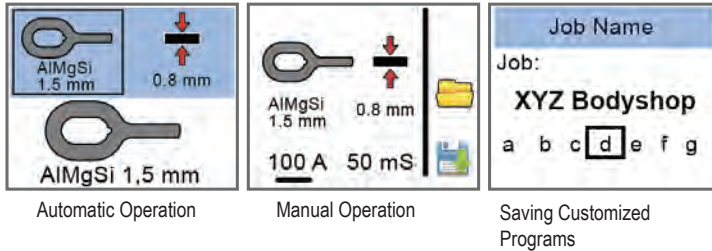

The Pro Spot DA-3 Synergic Drawn Arc welder easily applies pulling keys and threaded studs so that various tools can be used to pull dents from steel and aluminum panels.

The DA-3 serves different functions for a variety of repair procedures, it has a color graphics screen for easy and intuitive setup, customizable and storable weld programs, SD card memory to update and add programs, and is *extremely lightweight*.

**NO GAS
REQUIRED!**

PRO-GTK GLUE TAB DENT REPAIR KIT

the Pro Spot Glue Tab Dent Repair Kit will help with your dent repair process by cutting repair time by avoiding welding or arc procedures.

This kit works on Aluminum and Steel, directly on painted materials. No need to grind. It has multiple style pull accessories for any dent and Reusable Pull Tabs. No Panel Removal is required and it eliminates any backside corrosion, burn through and welding.

Heat up the panel and the tab

Apply glue to the pull tab and set it on the dent

Pull dents without welding!

Quickly remove dents when paired with the PB-10 Pull Bar.

Easily remove plastic tabs after pulling is complete.

Plastic tabs are reusable and ready to pull dent after dent.
