Pull dents without welding.

Quickly remove dents when paired with the PB-10 Pull Bar.

Easily remove plastic tabs after pulling is complete.

Plastic tabs are reusable and ready to pull dent after dent.

APPLIES IN 4 EASY STEPS

1 Plug in the glue gun and let it heat up while you prepare the dent and materials.

2 With 91% alcohol, clean the area you plan on repairing.

3 Heat up the panel and the tab to remove remaining moisture or contaminants from the panel and the plastic pull tab.

4 Apply glue to the pull tab and set it on the dent in the area you wish to pull.
