ION HAMMER DENT PULLER

THE POWER OF A WELDER.
CORDLESS FREEDOM.
TOTAL PRECISION.

PRO-101

THE REVOLUTION OF CORDLESS DENT REPAIR WELDER

ION HAMMER PRO-101 is a powerful, cordless dent repair welder powered by a rechargeable lithium battery, designed for a wide range of steel panel straightening applications. Lightweight, ergonomic, and easy to handle, it delivers exceptional freedom of movement and efficient performance — helping collision repair professionals save time, reduce costs, and maximize shop productivity.

KEY BENEFITS & TECHNICAL FEATURES

- **MAXIMUM PRACTICALITY:** Designed for comfort and control, PRO-101 features an ergonomic design that ensures a secure grip and easy handling in any working position.
- **UNINTERRUPTED PERFORMANCE:** Powered by a rechargeable, interchangeable LiPo lithium battery, Pro Spot Ion Hammer keeps your workflow moving. Quickly swap batteries when needed to minimize downtime and maximize productivity.
- **INTELLIGENT POWER MANAGEMENT:** An integrated digital control system manages welding parameters to suit the task at hand. Optional accessories to expand its versatility for a variety of repair applications.
- **HIGH POWER, LIGHTWEIGHT DESIGN:** Delivering up to 2,800 amps of power, Ion Hammer offers performance comparable to a traditional spotter in a lightweight design weighing just 2.3 kg (5.1 lbs). Its integrated ground contact features a 20 mm metal-cleaning area for efficient operation.
- **CORDLESS FREEDOM:** The rechargeable lithium battery eliminates the need for a power cord, giving technicians the freedom to move around the vehicle and work wherever repairs are needed—with greater flexibility and convenience.

VOLTAGE: 100 - 240 1ph
WELDING TIME OR PULSE DURATION: 20-100 ms
MAXIMUM OUTPUT CURRENT: 2800A
NOMINAL OUTPUT CURRENT: 1800A
NO-LOAD VOLTAGE: 7.4 V
INGRESS PROTECTION: IP20
L x W x H: 20.5" x 5.3" x 16.5"
WEIGHT: 9.5 lbs
