

The NEW lite version of the Pro Spot Windshield Repair Kit (PRO-WRK-LITE) is an easy to use automated glass chip repair system. The well designed, precision machined tool is made of aluminum alloy, making this tool lightweight but very durable. The tool sets up quickly over the chip and each repair step is just a quick turn of the tool - simple, fast and complete.

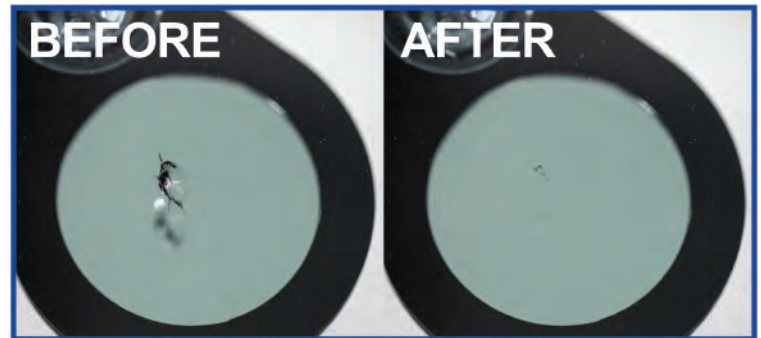

There's no need to change out tools as this all-in-one tool does everything. Each step of the repair is guided by the tool, from removing moisture, to resin application and UV curing.
