Safely & Quickly Extract Dust

Keep your shop clean with the new Pro Spot Dust-Free Sanding System. This patented, unique system safely and quickly extracts dust from sanding and collects it directly into a disposable bag.

The system does NOT contain any electrical motors or parts which helps to prevent explosive risks from heat and sparks.

The patented air improvement module increases vacuum performance and operates on an extremely low airflow at 5-7 CFM (compared to competitor systems that use 40-50 CFM). The low airflow keeps noise levels low while allowing you to save on air compressor energy cost.

SAND & CLEAN AS YOU GO!

DUAL ACTION ORBITAL SANDER

SANDING BLOCK

Features:

- Highly Portable
- Weighs only 14 lbs.
- Low Airflow at 5-7 CFM
- No Electric Motor
- Anti-static Hose
- Low Noise Level
- Energy Saving

Very Light & Portable

NEW! Dust-Free Sanding System mobile cart

- Work Surface Covered with a High Quality Textured Rubber Mat
- High Strength Bar for Attachable Folding Work Table
- Tool Board • Cable Hook • Sliding Drawer • Locking Wheels
