

DRAWN ARC WELDER PS-DA5

Precise Aluminum Dent Repair

The Pro Spot PS-DA5 Drawn Arc Welder is the latest technology in precise dent pulling for aluminum repair. Using drawn arc technology, the PS-DA5 easily applies pulling keys and threaded studs so that various tools can be used to pull dents from aluminum panels that would otherwise need replacing.

Pro Spot has a large variety of pullers and tools available for the PS-DA5 for various aluminum repair applications.

These applications are key for aluminum repairs as more and more aluminum vehicles hit the market. This is a must have aluminum repair tool when working on the new mixed matrix vehicles.

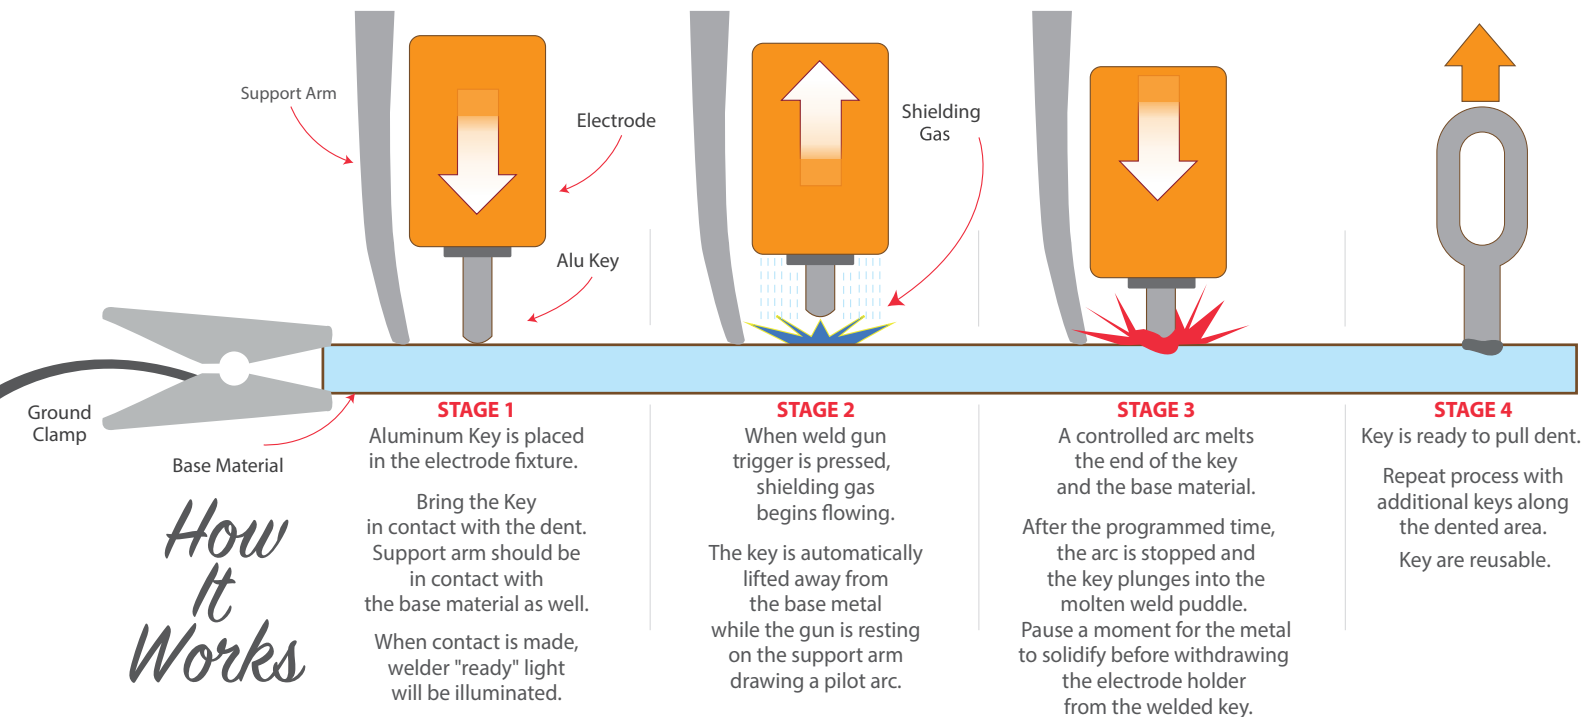

The Pro Spot PS-DA5 has a wide range of configurations to best fit your shop's needs. The PS-DA5 can be added to a weld cart, or even a Mobile Weld Station for additional storage and mobility.
